User Interface Customization Guide for Plumtree 4.5 WS SP1	
v.	**Terms*:** **support information (free download)**
This guide contains exercises to familiarize you with customizing the Java/JSP user interface for the Plumtree Corporate Portal 4.5WS SP1. These exercises are not necessarily things that you would want to change in your own UI. Instead, they are designed to get you familiar with the UI and comfortable with modifying it. Some sample files have been included with this guide.
